

BEA Union Investment Asian Bond Target Maturity Fund 2022

As at 30 October 2020

- The duration of BEA Union Investment Asian Bond Target Maturity Fund 2022 (the "Fund") is limited (i.e. up to the Maturity Date). There are risks that the Fund may not make any distribution and investors may not recoup the original amount invested in the Fund during the investment period as well as at the Maturity Date.
- The Fund invests in emerging markets and may be subject to higher liquidity and volatility risks.
- The Fund invests in debts or fixed income securities are exposed to interest rates, credit/counterparty, downgrading, volatility and liquidity, valuation and sovereign debt and credit rating risks which may adversely affect the price of the debt securities.
- The Fund may invest in below investment grade or non-rated debt securities which are subject to greater volatility and liquidity risks than higher-rated securities.
- The Fund is exposed to concentration risk in Asia and may be more volatile than in a more diverse portfolio of investment.
- The manager may at its discretion make distributions from income and/or capital in respect of the distributing classes of the Fund. Distributions paid out of capital amount to a return or withdrawal of part of the unitholder's original investment or from any capital gains attributable to that original investment. Such distribution may result in an immediate reduction of the net asset value per unit.
- In terms of currency hedged class units, adverse exchange rate fluctuations between the base currency of the Fund and the class currency of the currency hedged class units may result in a decrease in return and/or loss of capital for unitholders. Over-hedged or under-hedged positions may arise and there can be no assurance that the currency hedged class units will be hedged at all times or that the manager will be successful in employing the hedge.
- RMB is currently not a freely convertible currency as it is subject to exchange controls and restrictions. Non-RMB based (e.g. Hong Kong) investors are exposed to foreign exchange risk and there is no guarantee that the value of RMB against the investors' base currencies (for example HKD) will not depreciate. Any depreciation of the RMB could adversely affect the value of investors' investments.
- The Fund may acquire financial derivative instruments for hedging and investment purposes. Given the leverage effect embedded in financial derivative instruments, the Fund may be exposed to significant losses.
- Investors should not make an investment decision based solely on this material.

OBJECTIVE

The Fund, on a best effort basis, seeks regular income from the close of the launch period up to the Fund's target maturity date ("Maturity Date") (being 31 January 2022) and returns the capital of the Fund by investing primarily in Asian fixed income-related securities.

FUND POSITIONING

- Aims to provide 12 quarterly dividends at an annualized rate of above the USD 3-month LIBOR[^] (Dividend is not guaranteed and distributions may be paid out of income and/or capital²)
- Invests in Asian high yield and investment grade corporate bonds

[^] The distribution per unit is calculated as follows: annualised rate of above average of daily USD 3-month LIBOR (for each three-month period ending on the last day of January, April, July and October) / distribution frequency over a year (i.e. 4 for quarterly distributions) x net asset value per unit on the last day of the corresponding previous three-month period.

relevant offering document (including the key facts statement) of the fund for further details including the risk factors. The manager may at its discretion make distributions from income and/or capital in respect of the distributing classes of the fund. Investors should note that the distributions paid out of capital amount to a return or withdrawal of part of the unitholder's original investment or from any capital gains attributable to that original investment. Such distribution may result in an immediate reduction of the net asset value per unit.

- Since launch till 31 December of the same year.
- Please refer to the dividend notice available on website for dividend composition information and details. Past dividend record is not indicative of future dividend likely to be achieved. Annualised dividend yield = annualized rate of above average of daily USD 3-month LIBOR (for each three-month period ending on the last day of January, April, July and October) / distribution frequency over a year (i.e. 4 for quarterly distributions) x net asset value per unit on the last day of the corresponding previous three-month period.

Performance is calculated in the respective class of denominated currencies on a NAV to NAV basis. Gross income is re-invested. HKD/USD based investors are exposed to foreign exchange fluctuations.

Investments in the Fund are subject to investment risks, including the possible loss of the principal amount invested. For full details and risk factors of the Fund, please refer to the explanatory memorandum of the Fund. Investors should also read the explanatory memorandum of the Fund for detailed information prior to any subscription. The information contained herein is only a brief introduction to the Fund. Investors should be aware that the price of units may go down as well as up as the investments of the Fund are subject to market fluctuations and to the risks inherent in all investments. Past performance is not indicative of future performance. The Fund has been authorised by the Securities and Futures Commission ("SFC") in Hong Kong. SFC authorisation is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors. This material has not been reviewed by the SFC in Hong Kong.
